

# Eurasian Water-milfoil

*Myriophyllum spicatum*

(Non-native)

Leaves in whorls of 3-5.  
In late summer the distance  
between the whorls may be  
several inches.

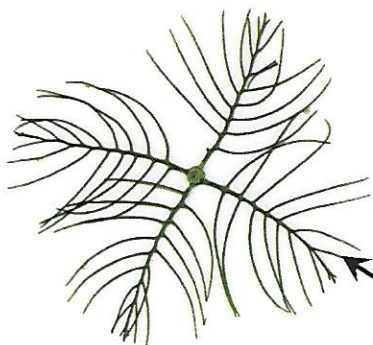

More than 12 pairs  
of leaflets.

# Northern Water-milfoil

*Myriophyllum sibiricum*

(Native)

Usually 12 or  
fewer pairs of  
leaflets.
